THE ZEPPELIN AIRSHIP.

In the accompanying illustration, the airship which Count Zeppelin has designed and perfected, after many years' experimenting, is shown making one of its flights over Lake Constance. The airship is so thoroughly under control that it circles and soars about as if it were some enormous sea bird. As depicted in this illustration, a powerful searchlight is being used to reflect some wooden rafts in the lake. The airship was constructed by the manufacturer of the famous Continental tyre, the Goodyear Co. using a specially woven fabric, coated with rubber and made thoroughly gas-tight and water proof. This section of the aerial structure took three months to build, and is over 600 ft. long, with a maximum diameter of 80 ft. The framework is of light metal, and the undercarriage is a specially-constructed pontoon, which enables the ship to safely alight on water. On each of two platforms or cars there are stationed a motor of 25 horse-power, which work a pair of screws, which act as propellers. Horizontal and vertical planes, both fixed and movable, secure stability, and altogether the airship has proved a remarkable success. The Goodyear Co. have made the balloons for most of the airships, which have been built recently, and are the only specialists in the world for this class of construction. In Australia, the special type of Continental tyre are marketed, full particulars of which can be had on application to the Continental Co. and O. R. Huber Co. 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

THE ONWARD MARCH.
—
PIONEERS, OLD AND NEW

ended by a prevalence of tobacco and beer, and in those luxuries the aboriginal people had to share.

These change. There is little resemblance between that first exhibition and the present gathering at Moore Park. In deed, it is easy to calculate the increased value which those worthy gentlemen would have been thrown had one of the boldest of the old breed been present to witness a change would come, or the decision that would probably have been shown if this visionary had insisted that stock would run in the thousands of pounds per head in value and that the future of the breed was assured.

Yet the change has come, and the progress in its evolution simply typify the progress and the development of the farmer from the days of the first pioneer. Outwardly the well-dressed stock-owners and agriculturists of the present differ much from those of their forefathers as our Royal Show does from the exhibition in Parramatta in 1820. The old order changes, and men with it. There is no finer figure in our history than that of the pioneer, the man who cleared the almost impenetrable forests to build homes. There is no finer figure in modern life than the modern farmer, in a cent and a half of a century, has transformed the wilderness into a great and prosperous country. The old order changes, and men with it. The great future—the one fighting against the primeval conditions, the other accepting the conditions, and facing a wider out-look than the pioneer. The great future—the one fighting against the primeval conditions, the other accepting the conditions, and facing a wider out-look than the pioneer. The great future—the one fighting against the primeval conditions, the other accepting the conditions, and facing a wider out-look than the pioneer.

lance-tree had thrown well back, the sun began on the firm, determined face, the well-kept hair, the straight nose, the firm lips, the deep crease beneath the strong flannel shirt and moustache, speaking of strength and purpose, the sinewy hand clutching the axe-silent but grand gesture connecting the past with the future, the eyes that were so full of affect: brown statues of kings and warriors standing proudly in their city streets. Will not our kings—our warriors? There was never a king, never a warrior, never a battle, never the heroes who set the faces to the west, and even in their—lure helped to build a nation. No strains marked, never divorced into march; there was an army of common men, and their track led through silent bush and over rocky mountain. The future was dark as unknown. As they rested beneath the shade of the trees, the sun shone down on the land would give them food or give them grave; whether the desert and would sweep across their bones, lost and unknown. To the west, the sun shone down on the land where they sat, and where the men who sit snugly in the Western mail or South on express, rushing along the steel track can well take off our hats in silent respect to the men who paid their track over those forbidding mountains to find the earth on lands beyond. Had they not done so, our fate and Show would be puny things to do. Both are the outcome of their work similar with the work of the farmer.

The farmer of to-day has his advantage, but is still the plunger to the men who will take his place in another 50 years. It is the sun, the soil, the water, the seed, the left the old land. He is standing on the threshold of a new world—a world of science and brain, as his forefather stood on the threshold of a new world of muscle and hand. He has ploughing work to do, and those that come after may reap the fruit as he reaps the fruit from the seed sown in the past.

is doing that work. It records his triumph and, by omission, his neglect also. It tells him and warns him. The old hero has been a pioneer of the South Coast rooted up a bit of land among the trees, into which would be dropped a seeds of wheat to start a crop, a crop of wheat to start a machine. The farmer of the future hitches his team to a plough and turns up thousands of acres instead of the few r; he reaps with a machine that goes throbbing and humming and he has a machine for threshing and bagging the grain. Yet he cannot rest here. He is a pioneer of to-day, and must be alert, seeking still better methods and modern means. As he moves among the machinery of the farm, examining with the eye of a playboy, he is reminded of the pioneer that fought his way over mountains seeking for fertile land. He is looking for but—medium, learning if eagles can fly, if horses can run. He knows that the newer plough will turn the soil better and easier than the old. He is in the agricultural pavilion, studying the different methods of cultivation in the world. He is in the pavilion of breeding. It runs right through the pavilion step in the search of knowledge is plough to horse and the men of the old times are the men of the future. He is determined to progress in humanity, the desire of individual achievement, the individualism which writes the history of a nation's success. He is friendly with their successors, for they are helping those who are to follow: he is "blazing the trail."

FREEMASONRY OF THE WEST.

COUNTRY IN THE CITY.

"There, that's the little horse I tipped," said the sunburned bushman in the brown hat with the black crepe puggaree.

A lady was cantering off the green sward on a pretty bay, with a blue ribbon round its neck. "That's the little horse I tipped." And so it was, in a way. He tipped every horse in the ring except one. And one of those got the second prize.

There seems to be a freemasonry south and north of Paramatta; and what one may see on the showground is one most envious of its privileges. All frank, fair, unmistakable countrymen, the healthy red glow on their cheeks as friendly, humorous creases that half of even accustomed to the glare of the less plains—they never seem to pass clapping one another's palms or smacking another's back. "Eh, Bob, how leave the wife?" "Very well, very. Gundamacher!" They talk in the language the symbols of the country, which is Italian right enough; though it might Greek to the city man.

A successful Show was held in 1901, with 75,486 people attended. In the same year the Agricultural Society was formed, and the first annual agricultural and stock festival, which cost £218, was held. It emerged from this venture on the positive side of the ledger. The society's position considerably strengthened in 1901. The 100-acre Park grounds were situated in the Government reserve, and the land was let for the society's benefit. The first meeting was held in 1903 by a grant of £100. In 1906 by a grant of £700. The office-bearers in 1908 included Lord Dufferin, the Governor, and Sir John Robertson, the Premier.

It was resolved on January 12, 1909, to take the name of the Royal Agricultural Society of New South Wales, and the 11th October Queen Victoria's birthday was chosen for the annual show. In 1909 the society was the grand "winner" and in 1901

Mr. E. Trelawny and Mr. A. B. Templeman being about to visit England, their colleagues on the council, the Sydney Chamber of Commerce, met yesterday to wish them a pleasant voyage and safe return. Mr. F. E. Winchcombe, president of the chamber, presided over the meeting.

STRYCHNINE IN THE BEER.

SENTENCE OF DEATH RECORDED.

A PECULIAR CASE.

At the Balmoral Assizes, to-day Edward Chomley pleaded not guilty to the charge of administering strychnine, with intent to murder John Hickey.

Evidence was given to the effect that Hickey returned from Broken Hill on December 16 to Mount Hephzibah Hotel, Tongue West, of which his wife was licensee. On the evening of the 16th Hickey was turned his wife out of the hotel. Hickey and his wife were friendly, and were drinking very freely together during the week-end on Saturday and Sunday. On Sunday morning Hickey was found dead in his room, and his wife was found drinking a glass of beer, which was brought to Hickey by the room, and at 11 o'clock, after drinking a glass of English ale, she commenced to have fits. About the 11 o'clock, the accused, John Hickey, was charged with the murder of Hickey, and was found guilty.

Justice Chomley: I am of the opinion that under the peculiar circumstances of this case the offender is a fit and proper person to be recommended for Royal mercy. I obtain from prosecuting counsel that the offender is a fit and proper person to be recommended for Royal mercy. I obtain from prosecuting counsel that the offender is a fit and proper person to be recommended for Royal mercy.

The jury, after a short retirement, returned with a verdict of guilty, with a recommendation to mercy.

In the Divorce Court to-day a decree nisi was granted to Mrs. Hickey, with costs, on the grounds of habitual drunkenness and cruelty. Mrs. Hickey to have the custody of the children.

THE MILK STRIKE.

SHORTAGE 10,000 GALLONS DAILY.

WOLLONGONG, Tuesday. The milk question took another turn this morning, when it became known that the circulars had been received from the Fresh Food and Ice Company, and the Farmers' Dairy Milk Company, offering to raise the price of milk to 6d per gallon on Sunday next.

The Farmers' Dairy Milk Company has agreed to give 6d from the 15th instant. There was an excited throng of suppliers at the various factories, and the Farmers' Dairy Milk Company was known that the offer of the two first-named companies would be refused. The local secretary of the United Milk Suppliers' Association caused a notice to be posted up, which, in effect, stated that the offer of the companies to raise the price from Sunday next was not to be accepted, and that all suppliers are called upon to stop their milk unless 6d is given for it from the 15th instant. Judging from the remarks passed on all sides, it is very evident that no milk will leave for Sydney on Sunday, except for the Farmers' Dairy Milk Company.

On the 15th instant, Mr. James had an interview to-day, Mr. A. P. Clapham, M.P., who is expected to return to Sydney by the end of the present year.

THE FEDERAL QUESTION.

MR. DEAKIN'S WITHHELD RESIGNATION.

A TARIFF APPEAL.

MELBOURNE, Tuesday.

Confirming the announcement published in the "Sydney Morning Herald," the Prime Minister states that he will meet Parliament to-morrow and ask for a postponement of the motion for a Royal Commission until the tariff appeal is decided.

Mr. Deakin said: "The only reason why you (the press) were not given so much of the fact as is included in those statements, which are partly fact and partly erroneous, was because we thought it was my first duty to communicate to the Governor-General, for the motion for a Royal Commission, postponing its consideration until after the Customs and Excise Bill constituting the tariff appeal, had been passed."

Mr. Deakin was asked why he sent for the Governor-General. He replied: "We have to foresee conditions under which this motion should not be accepted. If my amendment to-morrow is rejected, it will be necessary for me to take some official action. So far as I am concerned, the House will adjourn as soon as my motion is disposed of, until after the holidays. We are not prepared to bring down the proposals in regard to the tariff appeal, but we are well advanced, and will be circulated to the House to-morrow. It is anticipated by the Government that the tariff appeal will be decided by the House to-morrow."

Mr. Deakin also added: "I have received a very large number of telegrams, letters, cards, and other communications, urging me to reconsider my decision."

Members of the Victorian protectionist section of Opposition, who were spoken to to-day, gave a very committed reply as to what their attitude will be when they are asked to consider the tariff appeal. They are involved in the tariff and the tariff appeal, and the Government on Thursday next.
